Reading Comprehension (Part Two)

Read the article about three people who are interested in nature and answer the questions.

For questions 1–7, choose A, B or C.

My love of nature

A Sarah

When I was a child at school, I collected books about nature. My classmates and friends all spent their free time playing computer games, so to them I suppose I was a bit strange. I loved learning about animals from other countries, but as I got older, I found out that my own country has interesting nature too, and that's what I like studying now. I do lots of drawings of nature, and I put them on my blog.

B Pauline

I love birds and animals because of all the visits to forests and lakes we made when I was at school. It's a shame that things have changed so much now. In my opinion, children these days don't learn enough about nature, so lots of them are afraid of insects, for example. I have a great job because of my love of nature. I'm a nature photographer. It's brilliant, except for the early mornings!

C Lia

A few years ago, I read a blog with beautiful photos of animals, birds and plants, which made me start really looking at what lives around us. It was just a hobby at first, but now it's my job as I visit schools and give talks about nature. I love it. The only problem is if I am asked to draw a picture. I enjoy it, but I'm terrible at drawing! I'm going to take some lessons to try to get better.
